

Our COMET SR impresses with its extra flat and modern design. The rotating light with a class II certification ensures the best possible visibility and warning effect. This beacon is therefore particularly suitable for fire brigade and police vehicles when a rotating light is required.

PRODUCT FEATURES:

- Compact plastic housing
- 2 rows of LEDs providing a high warning effect
- Flash pattern: Switch between rotating light and strobe flash possible
- Connection cable: 0,2 m with open ends
- Day/night switching (automatic)
- Function monitoring
- 9 - 32 V multi-voltage
- Options:
 - Fixed mounting
 - analog or CAN447 variant
 - available as main beacon or 3rd beacon

Technical data:	
Designation:	COMET SR
Voltage:	9 - 32 V multi voltage
Flash frequency:	> 2 Hz
Average power consumption:	12 V: 1,3 A / 24 V: 0,7 A
Material:	lamp dome: PC / socket: ASA
Type of protection:	IP5K4K / IPX9K
Homologation: (Germany and international)	
Light according to ECE-R 65:	TB2 (E1)00 5127 / TB2 (E1) 00 5157
EMC according to ECE-R 10:	(E1)10R-05 01 9004 00
